Establishment of the NWT Law to Implement the United Nations Declaration on the Rights of Indigenous Peoples

The *United Nations Declaration on the Rights of Indigenous Peoples Act* was passed into law at the NWT Legislative Assembly on October 06, 2023.

The new UNDRIP Law was an initiative of the NWT Council of Leaders, and was a key priority of the 19th Legislative Assembly. The law establishes a process to ensure that all

GNWT laws and policies implement the articles of the Declaration.

Wildfire Evacuation Emergency Meetings August and September 2023

During the NWT-wide state of emergency, over 100 beneficiaries evacuated to Déljñę, with over 250 more evacuated from Yellowknife and other wildfire impacted NWT communities.

During this time, the DGG provided various supports to members, including:

- Evacuation flights into the community;
- Assistance to stranded medical travelers who could not return home after medical travel appointments were completed;
- Cash payments to assist with evacuation costs;
- Payments to support those with special needs;

- Emergency advocacy assistance to vulnerable and those in need of medical care;
- Creation of service navigators located in Edmonton, Calgary, and within DGG dedicated to assisting evacuees.

Behind the scenes, senior management, leaders, and the intergovernmental relations team were hard at work advocating for greater involvement in emergency management; explaining the impacts on individuals, the community, and the DGG to federal and territorial officials; and meeting with federal government Ministers to advocate for resources and reimbursements of the costs associated with supporting evacuees.

Meetings took place with Crown-Indigenous Relations Minister Anandasangaree; Indigenous Services Minister Patty Hadju; and with the NWT Council of Leaders, including the NWT Premier. Ongoing officials discussions will result in reimbursement of DGG emergency-related costs.
